**Oct 2021**

24
Months
Guarantee

All computers built by RDCS are of the highest quality and CE approved. All parts are guaranteed for a minimum of 2 years and labour for the 1st year.

✓ **Installation Service**
  Un-box, set up, configure your software and get you connected to the Internet.

✓ **Data Transfer Service**
  Transfer your data from your old machine and configure on the new.

Choose the type of system: Architect, Professional or Home/Office system.
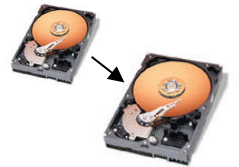

Select desktop package (Monitor, Keyboard and mouse). Select optional upgrade parts/software from list e.g. different operating system, extra memory, bigger hard disk, better graphics etc. Ask Richard for details

Choose optional extras such as surge protection, software etc. We strongly recommend Internet Security software, external backup and surge protection.
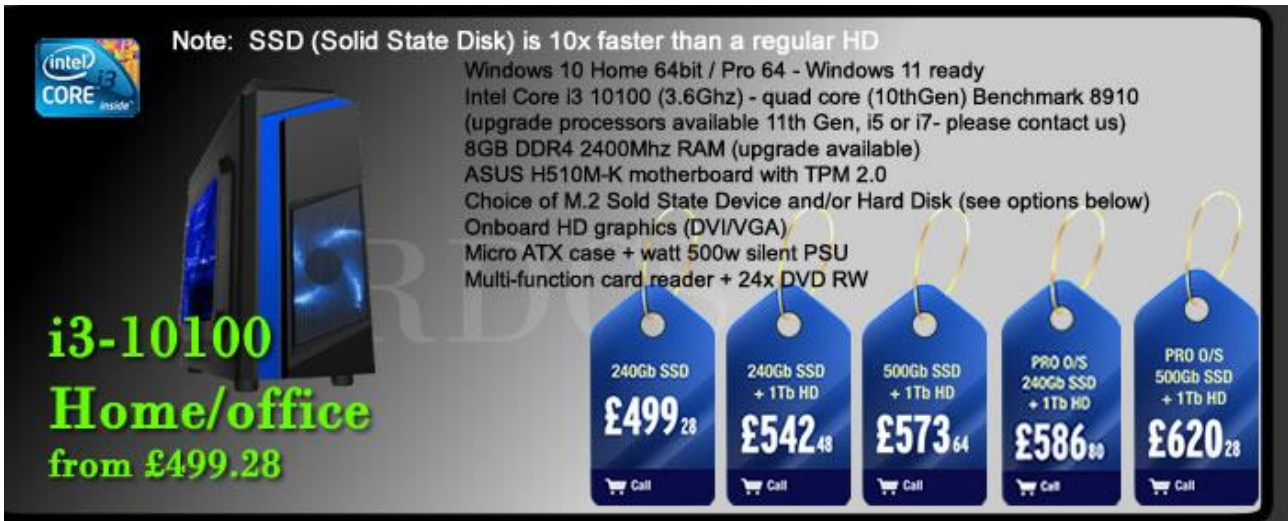

Contact RDCS to finalise order.

Enter the details on the pricing sheet attached.

Home / Office
RDCS *X4-i3-10100 Gen 10 (Home / Office)*

The RDCS *i3-10100* quad core system provides functionality that will cope with most tasks. The system comes with a choice of disks (M.2 SSD, SATA SSD or HD or both) and Operating Systems (Windows 10 – Windows 11 ready with TPM 2.0 support).

This system can be upgraded further with the addition of a faster processor, enhanced graphics and more memory in the future.

If you want something special (upgraded processor , faster graphics or memory etc) then please ask and we will be able to guide you and satisfy your precise requirements.

We strongly recommend Internet Security software and a back up hard disk.

⊕

All computers built by RDCS are of the highest quality and CE approved. All parts are guaranteed for a minimum of 2 years and labour for the 1st year.   Original software (Genuine Windows CD, Motherboard and peripheral drivers) is included.

⊕

Every care is taken to ensure that the prices quoted and parts listed are correct at time of printing. They are subject to change at short notice due to market fluctuations in price and availability. You will always be advised of any substitutions prior to computer build.

Special Instructions……..

NOTES:

*Installation – Installation is not just putting everything together but setting up your family user profiles, software and existing peripherals to work with the new system, therefore the more gadgets and users you have the longer it will take. Compatibility with peripheral software drivers is important to get right therefore we need to know about your peripherals and additional software prior to the installation as the drivers you have may need to be updated to work with a new Operating System.   Any work done in advance of the installation e.g. installing customer supplied software (additional to the new RDCS software such as Office), locating drivers and patches for existing peripherals/compatibility research carried out in the workshop in advance of the installation, forms part of the installation.

**Data Transfer – Typically prices from £36 inc depending on the amount of data. We will require your old PC or Laptop the day prior to installation in order to perform the transfer and will return it when your new system is delivered.

Note. The installation and data transfer rates only applies to single domestic system. For peer to peer networking or server driver networks a flat hourly rate applies (tier 2 for peer to peer or tier 3 for server driven networks). Please refer to our pricing list on our website. www.rdcs.com/prices.htm

If the parts are unavailable for any reason, an alternative will be sought which may vary the price. The price may also vary depending on market fluctuation. In either case you will be informed of any changes prior to the build.

The products listed in this brochure are ones that I use myself and am therefore happy to recommend, however if there are any variations that you particularly want I am more than happy to source for you.

All prices are inclusive of VAT@ 20% unless stated.

To finalise order, please contact RDCS. 01822 810799
